SUMMARY

Agricultural Engineering student with strong interest in software development, machine learning, and data-driven agricultural solutions. Experienced in building web applications for farmers using modern programming technologies. Strong problem-solving ability with leadership experience in hackathons and technical competitions.

EDUCATION

B.Tech Agricultural Engineering , Rathinam Technical Campus, Coimbatore CGPA: 7.89	2023 – Present
12th - State Board , Govt Hr. Sec School, Kangayampalayam Percentage: 66%	2022 – 2023
10th - State Board , SKL Public School, Tiruppur Percentage: 100%	2020 – 2021

SKILLS

Technical Skills Java, Python, C	Soft Skills Communication, Leadership, Adaptability
Concepts OOPS , DSA	Tools Git, Firebase

ACHIEVEMENTS

- Third Prize - Hackathon (Team Leader) for Smart Market Price Predictor for Farmers.
- NPTEL Elite Achiever - Cloud Computing.
- Active participant in weekly LeetCode coding contests.

PROJECTS

Sprout Up - Smart Market Price Predictor for Farmers • Developed a full-stack web application using JavaScript and Firebase to predict crop market prices. • Implemented machine learning logic to analyze market trends and generate price predictions. • Integrated Firebase authentication and real-time database for scalable data storage.
Farmora - AI Powered Farming Intelligence Support • Built a role-based web platform providing agricultural decision support. • Integrated weather and market datasets to generate risk-aware advisory insights. • Developed scenario-based simulations to evaluate crop and pricing strategies.

CERTIFICATIONS

- Machine Learning - Great Learning
- ChatGPT for Everyone - GUVI
- Design Thinking - Coursera
